

MAX Institute of Medical Education

Department of Emergency Medicine, Max Healthcare

presents

MEM-GWU (INTERNATIONAL)

in association with

George Washington University

WASHINGTON, DC, USA

ACADEMIC SESSION: 2026-2029

FROM THE GROUP MEDICAL DIRECTOR'S DESK

Learning is a lifelong journey for each one of us, a tool we use for self development.

We are proud that you have chosen to be with us in your pursuit of clinical excellence in Emergency Medicine. MEM-GWU is a very structured Programme. Our efforts are centred on four principles which we like to call the 4S agenda; Superb quality, Student centric, Scalable and Sustainable.

MEM-GWU programme embodies all the above mentioned principles and will not only prepare our students with clinical expertise but will also train them to deal with multiple complexities and quick decision making in a high pressured environment where every minute may make the difference between saving or losing a life.

Highly experienced faculties with years of expertise have been chosen to guide you through this learning curve.

We hope to be an integral part of our student's personal and professional growth and I look forward to welcoming you as part of the Max Healthcare family.

With Best Wishes

Dr Sandeep Budhiraja
Group Chairman – Internal Medicine
& Group Medical Director
Max Healthcare Institute Limited

FROM DIRECTOR, MEDICAL RESEARCH AND EDUCATION'S DESK

It is our pleasure to witness your presence & interest in MEM-GWU, a three year training programme being run in India under the aegis of George Washington University, USA.

The training is of 3 year standard duration enriching our residents in knowledge, skills & compassion needed for effective & efficient emergency medical care.

We encourage & support our residents to become certified provider/ instructor of ACLS, ATLS & PALS, along with publishing & presenting research work in respectable international forums. This, of course, is achieved because of the strong foundation laid by didactic teaching sessions as well as classroom, on a nearly daily basis.

The full-time faculty with background exposure & experiences of level one emergency & trauma centres overseas, proudly nurture & cultivate the quality beliefs & care-attitudes in the residents undergoing training & imparting flawless, emergency medical care with empathy & compassion.

We have 86 residents currently in our running programme, 26 students in PGY 3, 27 students PGY 2 and 33 students in PGY 1, who are enjoying the professional work culture at Max Super Speciality Hospital. This is done in consonance with clinical, pathological & radiological specialities lead to full holistic care of the patients along with unique innovations.

We are proud of our dynamic residents, faculties, nurses & ancillary staff which make us unique & challenge us to achieve further milestones. I am always at your disposal for any information you may wish to seek about our programme.

With Best Wishes

Dr Vinitaa Jha
Director – Research & Academics
Clinical Directorate
Max Healthcare Institute Limited

ABOUT US

Max Healthcare Institute Limited (MHIL) is one of India's leading providers of healthcare services. It is committed to the highest standards of medical and service excellence, patient care, scientific, and medical education.

MHIL has major concentration in North India consisting of a network of 20 healthcare facilities. Out of the total network, 14 hospitals and four medical centres are located in Delhi and the NCR and the others are located in the cities of Mumbai, Mohali, Bathinda, Lucknow and Nagpur.

We commenced operations in 2000 with our first hospital, Max Medcentre in Panchsheel Park, and expanded our operations by opening various multispecialty hospitals and entering into arrangements with societies and trusts. We provide healthcare services across secondary and tertiary care specialities with a focus on Centres of Excellence i.e. Cancer, Neurosciences, Cardiac Sciences, Orthopaedics, Renal Sciences, Liver & Biliary Sciences, Transplant Services, Gastrointestinal Sciences and more.

EMERGENCY MEDICINE AT MAX HEALTHCARE

VISION

To deliver 'Emergency Medicine Services' across Max Healthcare with an emphasis on medical and service excellence in pre-hospital and hospital patient care, by training and continuing improvements to match international standards.

MISSION

- Max Emergency stands for ‘Right patient to the right clinician at the right time in right clinical setting’
- To provide the best possible care to every patient
- To be a centre for innovation, research and excellence in Emergency Medicine
- To create an educational environment that promotes compassionate care and academic excellence
- To be a national leader for innovation in Emergency preparedness
- To serve as the ultimate medical safety net for our community

Emergency Medicine Services are an important aspect of any National Health Services. Max Healthcare has integrated pre hospital care (ambulance services) as an integral part of its emergency care.

We have an annual footfall of greater than 1,88,000 patients approximately in our Emergency Rooms. We are also the preferred network for patients suffering from Stroke, STEMI and Trauma. For these critical patients, all our centres are tertiary care providers catering seamless care from the door to the time of discharge.

Emergency Departments at Max Healthcare have been at the forefront in our fight against the deadly COVID-19 and other pandemics. This has been achieved amidst cohesive congruent teamwork among dedicated professionals in the department.

All Emergency Departments have triaging, resuscitation and observation areas and fully equipped with portable ventilators, defibrillators, infusion pumps, crash carts, BIPAP, and video laryngoscopes to manage emergencies.

Procedures like chest tube insertion, thrombolysis, central line cannulation, intubation, tranvenous, arterial lines, pacing POP cast applications are done at the department.

The X-ray, MRI and CT scan rooms are in close proximity to the department to facilitate the urgent investigation with minimal wastage of time. Bedside X-ray, 2 D ECHOS and ultrasound are also available.

ABOUT MEM-GWU PROGRAMME

COURSE CERTIFYING BODY

The Ronald Reagan Institute of Emergency Medicine (RRIEM), and The George Washington University (GWU)

The Department of Emergency Medicine at the George Washington University Medical Centre was established in 1991, in recognition of both the undisputed excellence of the Medical Centre's Department of Emergency Medicine and its role in saving the life of President Reagan after 1981 assassination attempt. The Reagan Institute serves to strengthen the health and welfare of local, national, and international communities through research, education, training, and consultative support. The objectives of the Reagan Institute are successfully achieved through initiatives related to Injury Prevention and Control, the medical aspects of disaster planning, preparedness and response, and the enhancement of emergency medicine throughout the world.

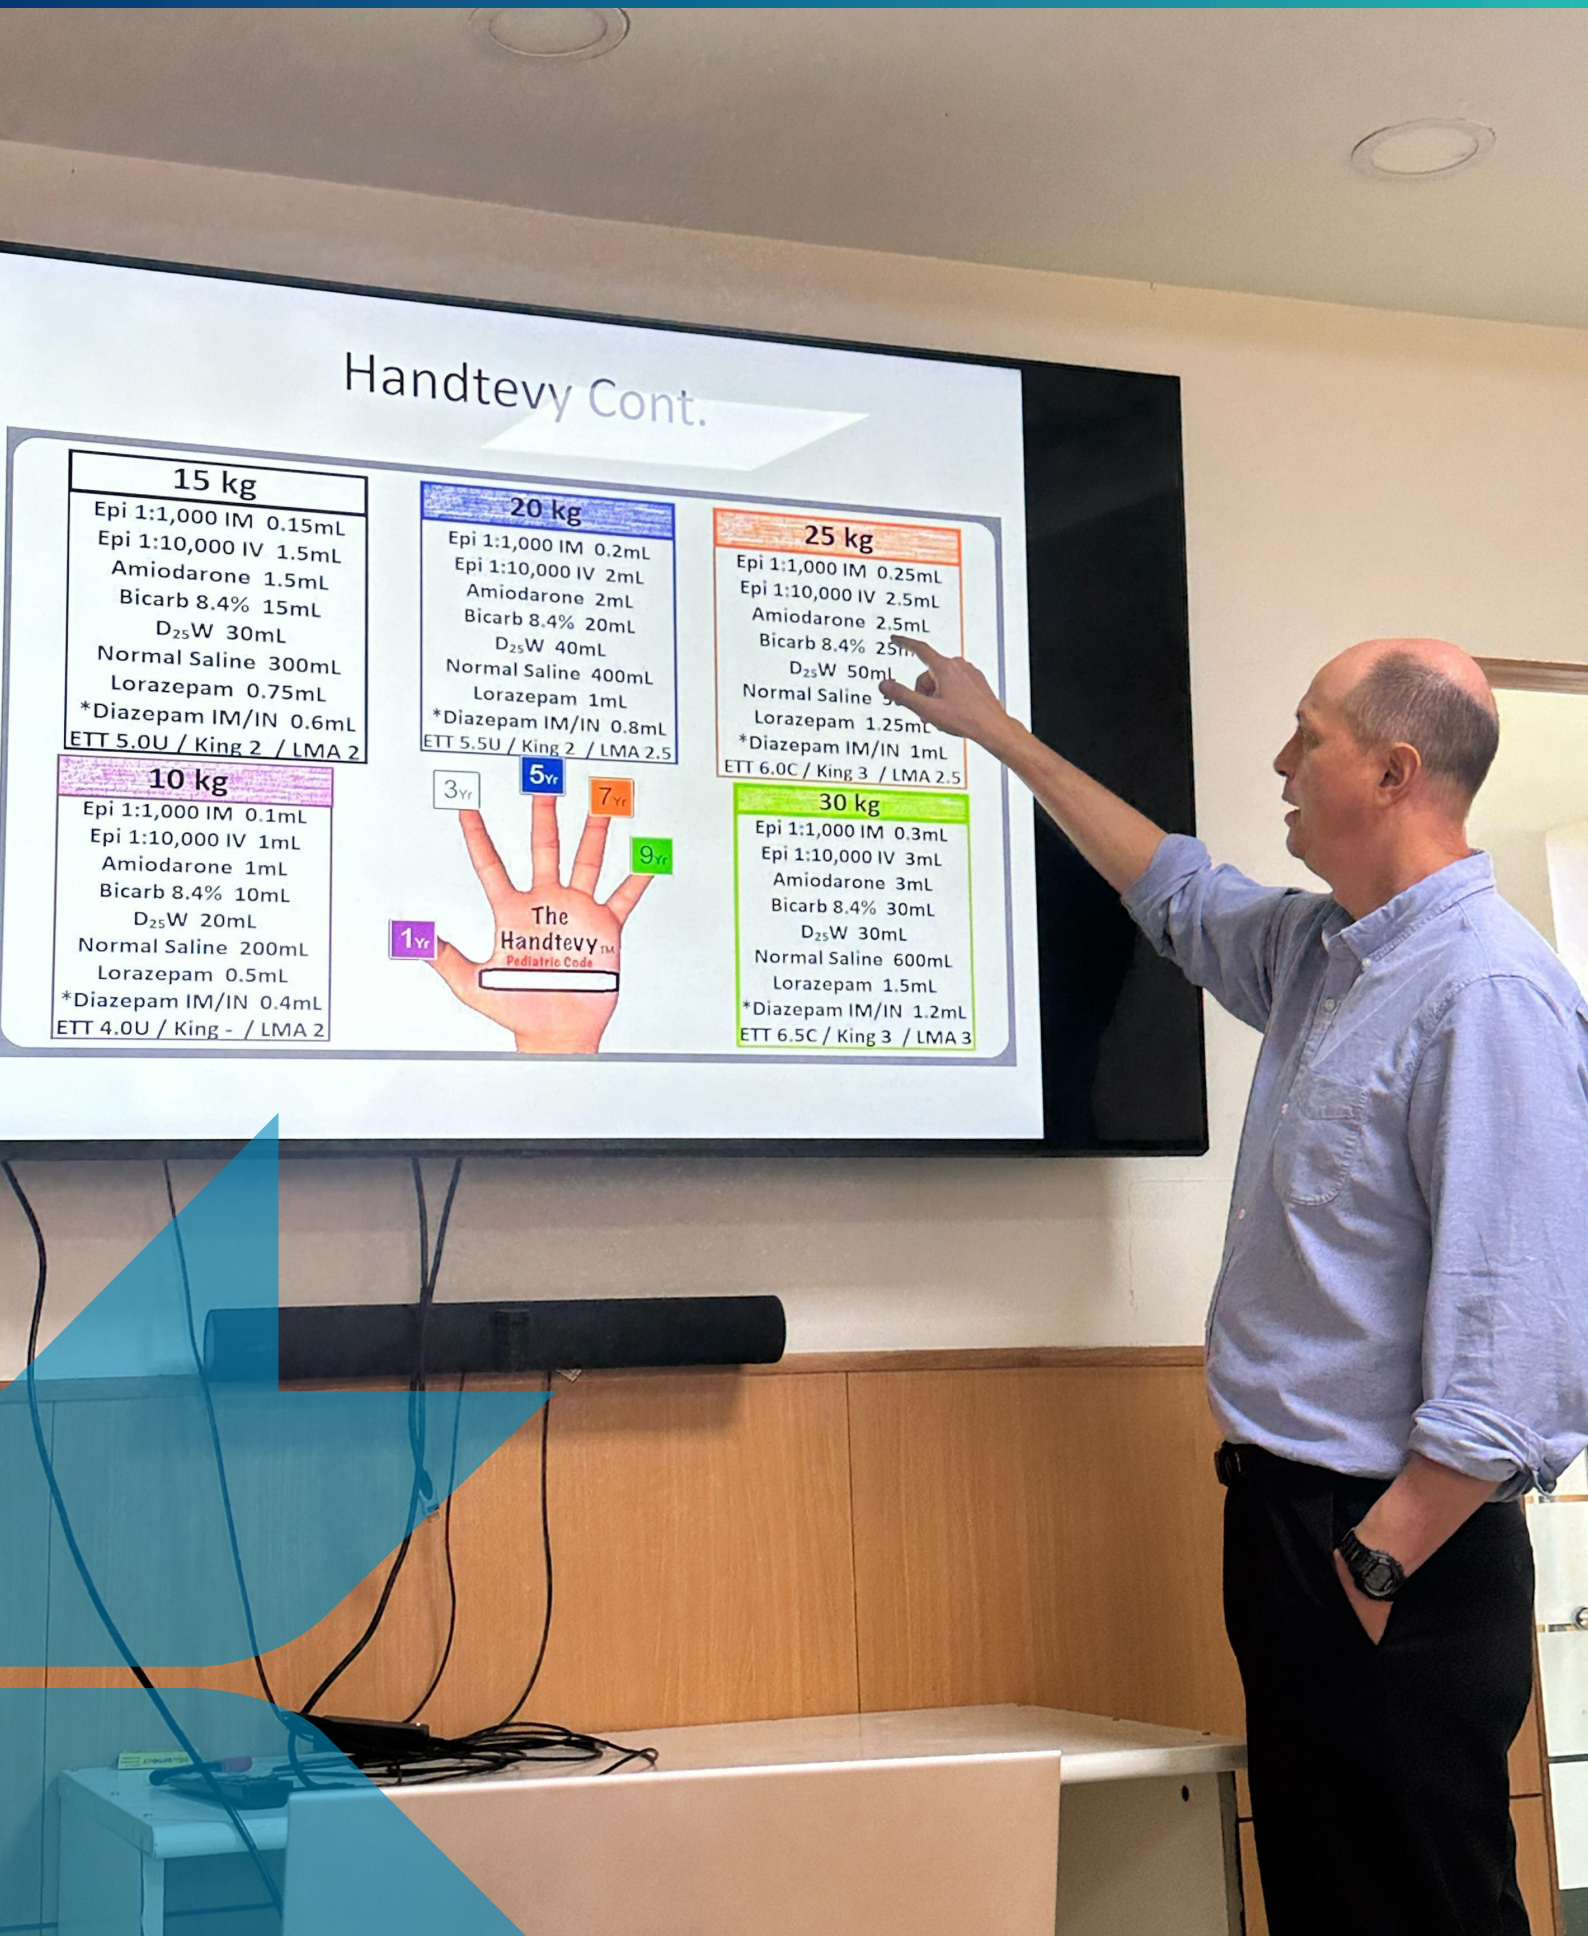
The Department is committed to service excellence in patient care and education, expansion of Emergency Medicine's boundaries through the development of new programmes and configurations, and the creation of new knowledge in this field. The Department is committed to improve our local community as well as providing a multitude of services throughout the world.

The Department of Emergency Medicine at the George Washington University was the seventh academic Emergency Medicine Department in the United States. The Department has extensive experience in training healthcare practitioners and non-medical personnel throughout the US and across the globe. The Department sponsors a broad range of clinical, educational, research, and consulting initiatives in the areas of Emergency Medicine and Emergency Management.

At the successful conclusion of the three year programme in Emergency Medicine, the graduating residents will receive an 'International Certificate of Successful Completion of the Three Year Post Graduate Programme In Emergency Medicine (MEM-GWU) from the Ronald Reagan Institute of Emergency Medicine, the George Washington University'.

Disclaimer: This Post Graduate Programme in Emergency Medicine (International) is not affiliated with sponsored, recognised or approved by National Medical Commission and/or the National Boards of Examinations.

COURSE CONTENT



MEM-GWU (INTERNATIONAL) CURRICULUM

The following table describes the curriculum details for the 36-month MEM-GWU Programme

Module & Month	Topic
Module 1 - July	Orientation
Module 2 - August	Cardiology I
Module 3 - September	Airway
Module 4 - October	Paeds I
Module 5 - November	Shock
Module 6 - December	Infectious Disease
Module 7 - January	Trauma I
Module 8 - February	Gastro Intestinal I
Module 9 - March	Ortho I Traumatic
Module 10 - April	Toxicology
Module 11 - May	Neurology
Module 12 - June	Psychosocial/ Violence
Module 13 - July	Orientation
Module 14 - August	Cardiology II
Module 15 - September	Trauma II
Module 16 - October	Paeds II
Module 17 - November	OB/GYN
Module 18 - December	Pulmonary
Module 19 - January	Soft Tissue/ Wound Care

Module & Month	Topic
Module 20 - February	Gastro Intestinal II
Module 21 - March	Paediatrics III
Module 22 - April	Endocrine
Module 23 - May	ENT & Ophtho
Module 24 - June	Environmental
Module 25 - July	Orientation
Module 26 - August	Cardiac Crit Care
Module 27 - September	Neonatal
Module 28 - October	Radiology
Module 29 - November	Procedures
Module 30 - December	Ortho II Non-traumatic
Module 31 - January	Infectious Disease II
Module 32 - February	Renal & GU
Module 33 - March	Tox II Tropical
Module 34 - April	Pulm II
Module 35 - May	Administrative/ Emergency Public Health
Module 36 - June	Haeme/Onc & Derm

The Society for Academic Emergency Medicine (SAEM) and the Council of Emergency Medicine Residency Directors (CORD) have developed a “Model Curriculum for Emergency Medicine”, and this model curriculum serves as the basis for the programme's modular topics.

PROGRAMME SCHEDULE

24 DAILY

- Instruction from a combination of faculty from RRIEM and MAX
- One-hour morning seminars with an emphasis on case-based teachings
- Presentation by the resident
- Presentation by faculty
- Clinical teaching through bedside clinical rounds of specific patients

7 WEEKLY

At least 9 hours for an educational conference that will include:

- Didactic lectures
- Case conferences
- Journal article discussions
- Guest lectures

During these conferences, the residents will be excused from clinical responsibilities, and will have protected time for their educational development.

Fundamental components of the education programme include:

- Lectures on the modular topic of the month
- Evidence-based medicine
- Journal article discussions
- Grand rounds and guest speakers
- Morbidity and Mortality (M&M) conferences
- Follow-up case discussions on patients admitted through the emergency department
- Procedures and skills seminars
- Presentations by the residents

In addition, residents will be encouraged to initiate and conduct research projects pertinent to emergency medicine, and they will be required to write scholarly articles that are worthy of publication. The residents will be expected to work on a research project with the faculty, and they will be required to submit one abstract or oral presentation per year at a conference. The residents should also submit one paper per year to a journal for potential publication.

The primary textbooks will be:

- **Emergency Medicine:** A Comprehensive Study Guide edited by Judith E. Tintinalli (9th Edition)
- **Rosen's Emergency Medicine:** Concepts and Clinical Practice (9th Edition)
- Clinical Procedures in Emergency Medicine by James R. Roberts and Jerris Hedges (7th Edition)

CLINICAL ROTATIONS

Residents will undergo rotations in both the Emergency Department and other key clinical services. Each year, they will spend nine months in the Emergency Department, with the remaining time dedicated to rotations in various specialties. These rotations will enhance their knowledge and skills in core areas, providing a well-rounded clinical training experience.

Rotation Schedule for a Resident:

Year I	Year II	Year III
Emergency Department (9 months)	Emergency Department (9 months)	Emergency Department (9 months)
Anaesthesia (1 month)	Trauma (1 month)	Paediatric Emergency Medicine (PEM) (1 month)
CCU (1 month)	SICU (1 month)	PICU (1 month)
MICU (1 month)	OB/Gyn (1 month)	

GWU rotation 6 weeks optional (At PREIM, GWU, Washington DC and Arlington EMS)

MEM-GWU (INTERNATIONAL): EXPECTATIONS

Lectures

- Each resident must give a minimum of two lectures per year to be evaluated by GWU faculty and receive a passing grade on both
- Lectures must be 45 - 60 minutes in length
- Lectures must include at least one reference to a journal article
- Lectures that receive a failing evaluation must be made up in order for the resident to be eligible to sit for the end-of-year exam

Journal Club

- Each resident must lead a minimum of one journal club per year to be evaluated by GWU faculty and receive a passing grade
- Journal clubs that receive a failing evaluation must be made up in order for the resident to be eligible to sit for the end-of-year exam

Examination Policy

- Residents are expected to achieve a passing grade of more than 60% in each monthly exam on Rosh Review. If that score is not achieved, then the resident will be expected to complete and an extra 50 practice questions. Quarterly summative exams will be given covering the most recent three months' topics, and each resident must achieve a passing grade of more than 70% in each of these quarterly exams in order to sit for the annual exam and advance to the next year of training. Residents must pass all quarterly exams by the third attempt. Those who do not adhere to this standard will have individualised remediation plans but may not be permitted to advance to the next year of training or sit for the annual or end-of-training exam
- Every resident must take an annual written examination at the end of years one and two of training and receive a minimum score of 50% uncurved. Residents who do not achieve this score will be reviewed on a case-by-case basis with potential consequences including academic remediation, academic probation, or removal from the programme. In addition, there will be an oral examination at the end of years one and two of training that must be completed successfully with 60% of critical actions completed and no dangerous actions
- The end of the training examination will be offered on an annual basis in June/July only, with the potential for preapproved remediation exams in January for those who are unable to complete the programme at the end of June. This exam will consist of written and oral exams to be conducted over three days. A final cumulative exam score of 70% on the written and oral exam will be required to successfully pass the exam. In addition, all oral board casesmust be completed successfully with no dangerous actions and 80% of critical actions completed

Thesis

- Every candidate must complete a research project and write a thesis under the direct guidance of a local faculty member. Visiting faculty will provide secondary supervision and mentorship in this process.
- It is anticipated that residents will adhere approximately to the timeline outlined below: Topic selection should be accomplished by the end of year one, thesis approval and IRB completion (if necessary) by December 1st of year two, and draft thesis completion and submission by March 1st of year three for faculty review.

Passing Criteria

- Residents must receive a passing grade on their written and oral board examinations to pass the course.
- There will be online written exams every quarter.
- There will be an oral examination, at the end of years one and two during which residents must successfully manage a simulated critically ill patient, completing an adequate number of key critical actions while not committing dangerous actions in order to pass."
- At the end of 3 years, in addition to a written exam, residents must complete a 3-day oral boards examination, in which they must demonstrate clinical competence caring for patients in series of simulated scenarios.
- Thesis completion & submission is a must to get the GWU certificate
- Attendance criteria: 80% attendance is compulsory to sit for the post-test and final exam

Attendance Policy

- Each resident will be allowed to take 3 weeks of vacation/holiday time per year. These weeks must be negotiated with the rotation director in advance. The resident is responsible for making up for the modular exam
- The maximum excusable missed (leave) time during the course of the programme is 10% (2.5 months of two years, 3.5 months of three year programme. Beyond the weeks of allowed vacation, missed time is only permissible with a reasonable excuse. Missed time will be expected to be made up to gain full certification. For any missed months, the resident will be expected to:
  - Make up the full clinical time
  - Review all presentations for that month
  - Successfully complete the monthly post-test examinations
  - Residents must attend a minimum of 80% of all didactic sessions
  - Attendance will be taken at 15 minutes past the start of lecture
  - Tardiness for any reason will count as an absence
  - Residents who fail to adhere to this standard will not be permitted to take the annual exam, progress to the next year of academic training, or graduate from the programme

CAREER OUTCOMES AND ALUMNI PROGRESS

PLACEMENT NEWS

The effectiveness of any programme is known by the placements it can generate for its students and MEM has been completely successful in that with 100% placement. The first batch finished the programme on 31st July 2011. The batch was successfully placed spanning India and the world. A couple of students were selected for direct recruitment in the UK without clearing PLAB through the MTI scheme of the College of Emergency Medicine, UK based on training at Max Healthcare in affiliation with George Washington University, USA. Since then, every year MEM graduates are successfully placed in India, UK, Ireland, UAE and many other countries.

MEM Alumni: Current Status

S. NO.	NAME OF THE CANDIDATE	DESIGNATION	CURRENT EMPLOYER
1	Dr Sanjay Jaiswal	Director and HOD, Department of Emergency	Max Hospital, Patparganj, New Delhi & Max Hospital, Sector 128, Noida, India
2	Dr Vanita Mittal	Associate Vice President	Max Institute of Medical Education, Saket, New Delhi, India
3	Dr Raheel Sharfeen Qureshi	Consultant, Department of Emergency Medicine	Hamad Medical Corporation, Doha, Qatar
4	Dr Waseem UL Hassan Chisti	Consultant	East Sussex Healthcare NHS Trust, UK
5	Dr Sarmad Shah	Consultant	Mater Hospital-NHS, UK
6	Dr Bilal Ahmed	Speciality Registrar	East Sussex Healthcare NHS Trust, UK
7	Dr Jitin Bhugra	Specialty Doctor ED	The Countess of Chester Hospital, Chester, UK
8	Dr Sasha Javed	Registrar	Craigavon Area Hospital-NHS, UK
9	Dr Sunil Kr Choudhary	Consultant & Head, Emergency Department	MSSH - Ranchi, India
10	Dr Prahlad Aggarwal	Medical Superintendent and HOD, Emergency, GM Operations	Dharamshila Narayana Super Specialty Hospital, Delhi, India
11	Dr Peerzada Badruduja	Registrar	King Hamad, Qatar
12	Dr Punidha Kaliaperumal	Specialist Emergency Medicine Consultant	International Red Cross, Beirut, Labanon
13	Dr Priyanky Bordoloi	Senior Registrar	Fortis Memorial Research Institute, Gurgaon, India
14	Dr Avanti Koirala	Registrar	Weston Area Hospital, UK
