Max Institute of Medical Education
presents
Advanced Trauma Life Support® (ATLS®) Course
under the aegis of ATLS India
certified by
American College of Surgeons-Committee on Trauma
Upcoming Courses

Date: 1st to 3rd February 2024 | 21st to 23rd March 2024

Every minute counts in trauma care. This is why Advanced Trauma Life Support® (ATLS®) provides a method for immediate management of injured patients. The approach is systematic and concise as well as safe and reliable. First introduced in 1980, ATLS has now been taught to more than 1 million doctors in more than 80 countries around the world.

WHY ATLS:**Need**

- Injury is precipitous and indiscriminate
- The doctor who first attends to the injured patient has the greatest opportunity to impact outcome
- The price of injury is excessive as well as human suffering

Programme

- CME programme developed by the ACS Committee on Trauma
- One safe, reliable method for assessing and initially managing the trauma patient
- Revised every four years to keep abreast of changes

Benefits

- An organised approach for evaluation and management of seriously injured patients
- A foundation of common knowledge for all members of the trauma team
- Applicable in both large urban centers and small rural emergency departments

Objectives

- Assess the patient's condition rapidly and accurately
- Resuscitate and stabilize the patient according to priority
- Determine if the patient's needs exceed a facility's capabilities
- Arrange appropriately for the patient's definitive care
- Ensure that optimum care is provided

ATLS® Provider course is a three day course which includes -

- Interactive lectures • Skill stations • Demonstrations • Group discussions • Simulated patient scenarios
- Written exams • Candidate will get ATLS 10th edition student's course manual
